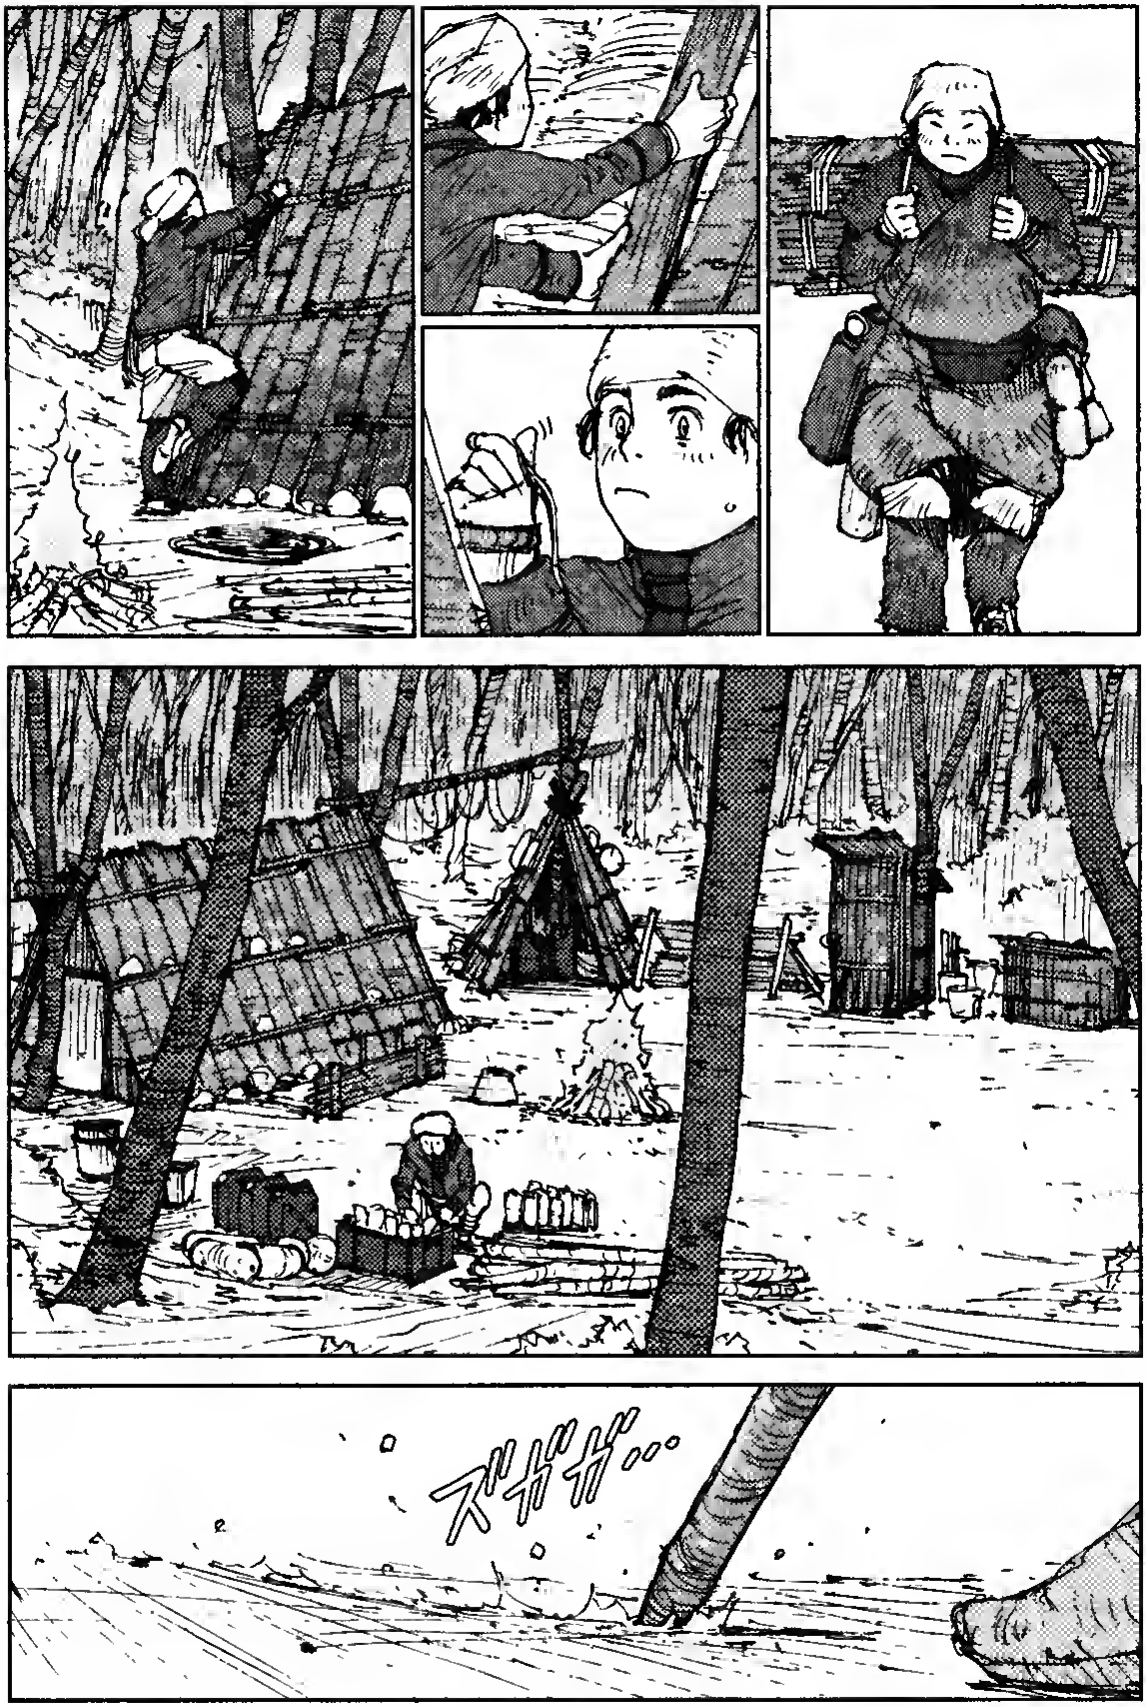
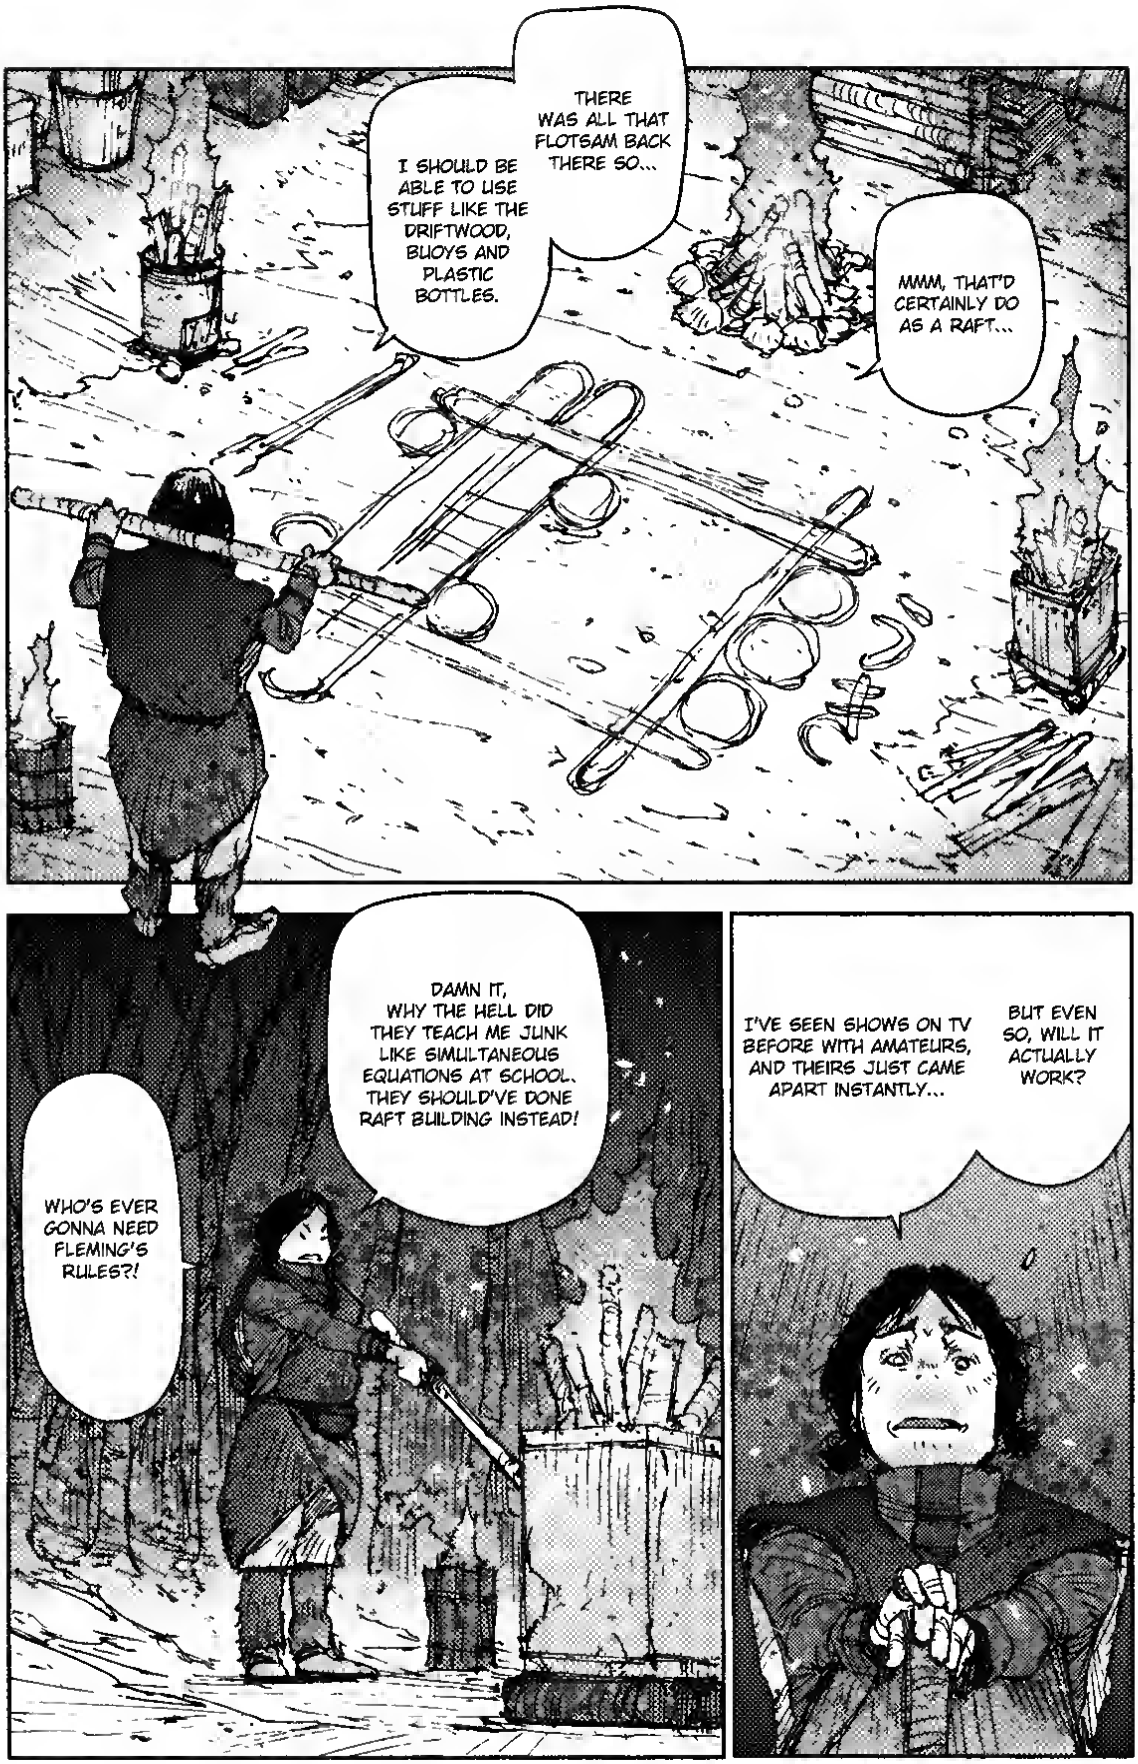
DANGER 33





THERE WAS ALL THAT FLOTSAM BACK THERE SO...
I SHOULD BE ABLE TO USE STUFF LIKE THE DRIFTWOOD, BUOYS AND PLASTIC BOTTLES.
MMM, THAT'D CERTAINLY DO AS A RAFT...
DAMN IT, WHY THE HELL DID THEY TEACH ME JUNK LIKE SIMULTANEOUS EQUATIONS AT SCHOOL. THEY SHOULD'VE DONE RAFT BUILDING INSTEAD!
WHO'S EVER GONNA NEED FLEMING'S RULES?!
I'VE SEEN SHOWS ON TV BEFORE WITH AMATEURS, AND THEIRS JUST CAME APART INSTANTLY...
BUT EVEN SO, WILL IT ACTUALLY WORK?

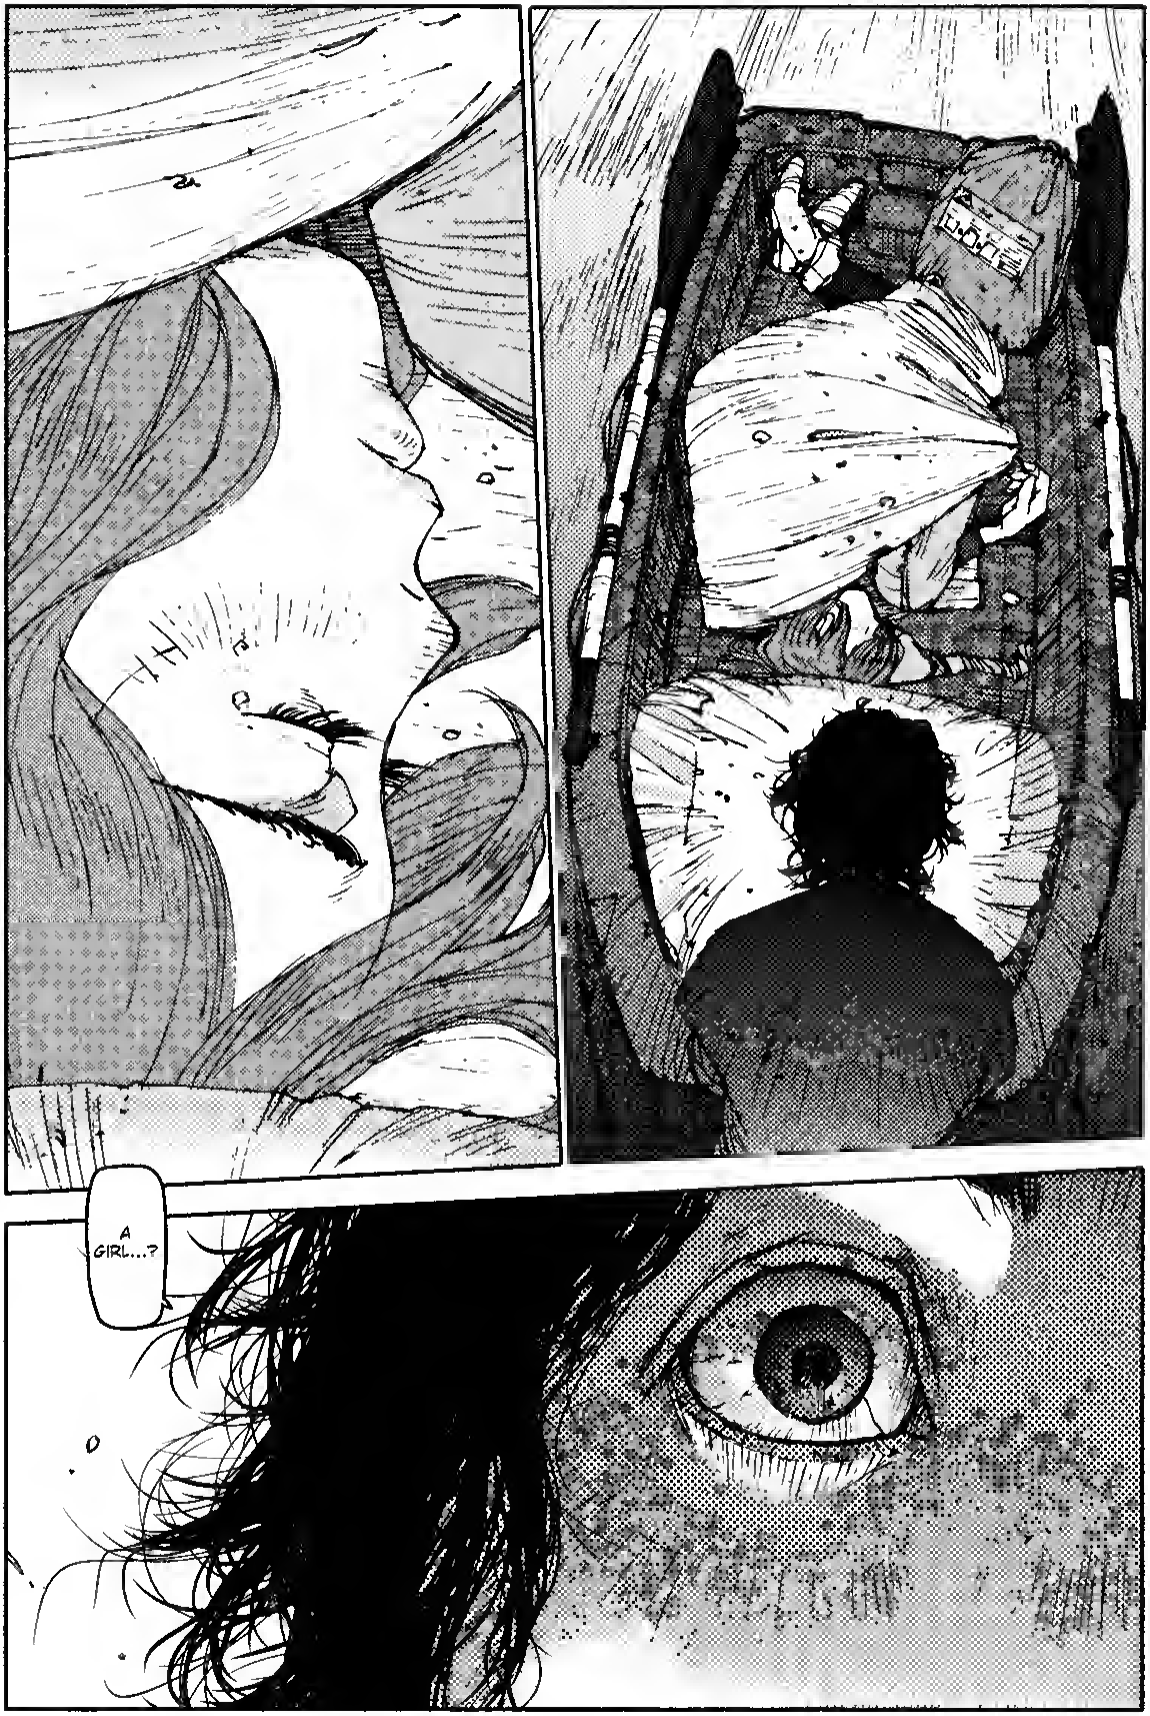
AAH, RIGHT...
HAAH, SO COLD!
KAY.
ガバ!
GET THROWN INTO THE OCEAN WHILE IT'S THIS COLD AND YOU'D BE DEAD IN SECONDS.

WONDER IF THESE BOTTLES COULD BE USED AS A LIFE JACKET?
?
IT'S NOT EXACTLY LIKE I COULD MAKE A DECENT RAFT RIGHT OFF THE BAT ANYWAY. I SHOULD PROBABLY HOLD ONTO AND TEST OUT ANY MATERIALS WHICH LOOK USABLE.
I'LL HAVE TO WAIT UNTIL IT'S AT LEAST A BIT CLOSER TO SPRING...
SOMETHING BIG'S DRIFTING ALONG.
WHAT IS IT?
HERE'S HOPING I'M IN LUCK AND CAN USE IT SOMEHOW.
OH!
...
HM...?

?!
WAIT...
COULD IT BE?!
A BOAT?!
FOR REAL, NO WAY!
IF SO I WOULDN'T NEED TO WORRY ABOUT MY RAFT!

THIS WAY, THIS WAAAY! COME ON, DRIFT OVER HERE!
THIS WAY!
COME ON!
HA!!

ALRIGHT, CAUGHT IT!
GOT IT, WITH THIS...
HAAH, HAAH, GOT IT.
...
OH...?



A GIRL...?
